

Learn more about Energy Technologies, Environmental Topics,  
and Regional Renewable Projects at the 3rd annual

# Lake Superior ENERGY FAIR

In conjunction with the 14th annual Harvest Festival

## Bayfront Festival Park, Duluth, MN

**FREE** and open to the public  
Hands-on displays and exhibits

**Saturday**  
**Sept. 8, 2007**  
**9AM-4PM**  
**rain or shine**

This event provides fair goers a unique opportunity to network with professionals and individuals interested in a wide array of energy and environmental topics.

Come and see how renewables and energy efficiency will be in your future.

Workshop topics to include:

- Reducing your carbon footprint
- Energy supply and demand
- Renewable energy systems (wind and solar)
- Efficiency solutions to energy needs
- Energy-efficient food preservation
- Energy-efficient buildings

### KEYNOTE EVENT
