

Sweep up your sand and give it back to the city

Look for Drop off Locations for Sand Only From Early April through May

- 34th Ave East & Valley Drive
- Chester Bowl
- Duluth Heights Community Club
- Lester Park
- Piedmont Community Center
- Stowe School
- Wheeler Field
- Woodland Community Center

This stream protection project is brought to you by the City of Duluth and the South St. Louis County Soil and Water Conservation District, through funding from the Great Lakes Commission.

PROTECT OUR LAKE

SPRING CLEANING?

Don't forget the Curb and Gutter

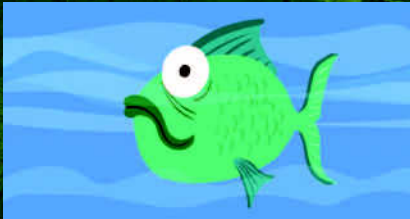

What do you do with sand that's is plowed up onto your sidewalks or boulevard? Raking or Sweeping Sand into the Street is Bad for our Streams. Street Sweepers can't get it all.

- 7th Annual City-Wide Spring Sweep -

The Problem.

Q. So what's the problem with sweeping sand into the street. Aren't streets dirty anyway?

A. Anything on Streets ends up in Creeks!
Curbs, gutters and ditches lead to storm sewers.
Storm sewers lead to streams and Lake Superior.

- Sand and grit fills in and destroys habitat for fish, insects and all aquatic life.
- Sediment clouds streams- trout can't see food
- Sand and Grit carries other pollutants like oil, grease, and nutrients

You are part of the Solution!

When: During spring cleaning

Where: Sidewalks, boulevards, gutters and ditches around your home

What: A community effort to sweep up sand and dirt

Why: Protect our streams and Lake Superior

How: Collect sand and grit and bring it to a neighborhood Road Sand Collection Site.

Contact the City if you need help to collect or take material to the collection site.

Call 730-4130 for help or more information.

What about my old leaves and brush?

The Western Lake Superior Sanitary District's Yard Waste Site opens in April

Call the WLSSD Hotline for more information at 722-0761

No sand or grit accepted at the Yard Waste Site
