

Learn to be: **Eco-Friendly**

Small-project contractors, landscapers & home re-modelers: The Regional Stormwater Protection Team is holding a workshop on **Wednesday, October 1st, from 12-2 pm.**
Free Lunch.

Come learn about simple, inexpensive ways to prevent erosion and protect water quality during the construction process. Focused on small sites. Classroom and field. Meet at City of Duluth, Comfort Systems, on Garfield Ave.

Why should I do this??

- potentially increase your profits by learning how to demonstrate your **“eco-friendliness”** to environmentally-conscious customers.
 - free lunch!
- avoid potential violations of laws relating to the protection of Waters of the State.

★ Contractors who attend this seminar will be placed on a **“stormwater certified”** list that is being piloted through the Regional Stormwater Protection Team. This list will be made available to all RSPT governmental entities to offer to their citizens through their permitting process.
